

Westland Safety Data Sheet

1. Product: Multipurpose Lawn Seed

Produced by Westland Horticulture
14 Granville Industrial Estate
Dungannon
Co. Tyrone
BT70 1NJ
Telephone 028 87727500
Fax 028 27723800

2. Product composition

contains a mixture of grass seeds of the following varieties 60% dwarf Perennial rye grass and 40 % slender creeping and strong red fesque

UN Classification. Not in hazardous category.

Transport Classification. Not applicable.

3 Chemical & Thermal Properties

Stable under normal storage and handling conditions.

4. Physical Properties

Small elongated straw coloured seeds with a bulk density kg/m^3 .

5. Health Hazards

Products are of a low toxicity but prolonged skin or eye contact may cause some irritation.

Ingestion: Small quantities are unlikely to cause toxic effects.

Large quantities may give rise to gastrointestinal disorders

6. First Aid

Product

Skin contact: Wash the affected area with soap and water.

Eye contact: Irrigate eyes with copious amounts of eyewash solution or water for at least 10 minutes. Obtain medical advice if symptoms persist.

Fire and Thermal Decomposition Products

Skin contact: rinse affected areas with copious amounts of cold water. Seek medical advice.

Inhalation: Remove from source of exposure to fumes. Keep warm and at rest. Obtain medical advice if symptoms persist.

7. Precautions for Storage, Handling & Use

Storage: The basic requirements are the avoidance of involvement in a fire and contamination. Locate away from sources of heat, fire or explosion. Keep away from combustible materials and chemical substances taking particular care on farms to ensure that it is not stored near hay, grain, diesel, etc. Ensure high standard of house-keeping in the storage areas. Do not permit smoking or the use of naked lights in the storage area.

Handling: Avoid contamination

Personnel Protection: Wear gloves when handling the products over a long time periods.

Use: Use in accordance with manufacturers advice. Do not exceed maximum recommended rates of application.

8. Transport

Avoid transport with other materials where there is undue risk of contamination. Ensure that the transport is clean before loading the product.

9. Spillage

Clean Up spillage promptly. Sweep up and place in a clean appropriately labelled container. Depending on the degree of contamination dispose of it by using as

intended or at an authorised waste facility. Take care to avoid the contamination of watercourses and drains. Inform the appropriate water authority in the event of accidental watercourse contamination.

10. Fire Fighting

1. Avoid breathing the fumes. Wherever possible wear an approved breathing mask when fighting a fire or when fumes are being emitted.
2. Call the fire brigade.
3. Use plenty of water.

6. Do not allow contaminated water to run into drains. If water containing the fertiliser enters any drain or water course, inform the appropriate water authorities Immediately. Note also first aid precautions (6).

11. Use Responsibly

This safety data sheet provides health and safety information. The product is to be used in applications consistent with best practice. Individuals handling this product should be informed under COSHH of the recommended safety precautions and should have access to this information. The product information in this data sheet is to the best of the Westland's knowledge correct as at this date of publication.
