Why use Gro-Sure[®] Slow Release Plant Food?

- ✓ Feeds for 6 months
- ✓ Ideal for pots, hanging baskets & containers
- ✓ A blend of slow releasing granules, plus fast acting plant food providing nutrients when plants need it most

How to use

Pre-mix with compost before planting.

Where to use	Amount	Volume
Compost for bedding plants, basket plants etc	20g*	Per 10 litres of compost

Sprinkle over the surface of compost/soil.

Where to use	Amount	Area/volume
Pots/Tubs/Baskets	30g	Per 30cm / 12" pot
Window Boxes	20g	Per 30cm / 12" pot
Growbags, Beds & Borders	20g	Per 30 litres of compost
Shrubs, Roses, Fruit Trees	50g	Per square metre

*One handful of granules is about 40g. Water in to activate granules.

EC FERTILISER NPK FERTILISER 12-7-19 WITH MICRO NUTRIENTS

Nitrogen (N) Total	12.0%	Potassium Oxide (K ₂ O) soluble in water	19.0% (15.7% K)
Nitric N	6.2%	Total Copper (Cu)	0.07%
Ammoniacal N	3.8%	Total Iron (Fe)	0.40%
Ureic N	2.0%	Total Manganese (Mn)	0.15%
Phosphorus Pentoxide (P ₂ O ₅)	7.0% (3.0% P)	Total Zinc (Zn)	0.07%
P ₂ O ₅ Soluble in neutral ammonium citrate & in water			
P ₂ O ₅ Soluble in water	4.4% (1.9% P)		

Further information

Always re-seal after use. Do not exceed the stated application rate. Increasing the dosage may damage your plants. Store in a safe, dry place, away from children, animals and feedstuffs. Wash hands after use.
