

MAPP No. 15853

Resolva Super Strength Xtra Tough Concentrated

FOR USE ONLY AS A HOME GARDEN WEEDKILLER

Resolva Super Strength Xtra Tough Concentrated weedkiller is a concentrated tough weedkiller. It kills weeds and roots and controls annual and deep-rooted perennial grass and broadleaved weeds including broken, broad-leaved dock, common couch, cleavers, colt's foot, chickweed, common nettle, common thistle, creeping buttercup, curled dock, dandelion, ground elder, perennial sow thistle, plantains, red clover, scotch thistle, sheeps sorrel, spear thistle, speedwell, white clover, white dead nettle, willowherb, yarrow and many others. Resolva Super Strength Xtra Tough Concentrated weedkiller's advanced formulation is biodegradable and leaves no residues in the soil, and is rainfast in 6 hours.

INSTRUCTIONS FOR USE

WHEN TO USE

- Use on a calm day when weeds are actively growing and have a large leaf area to absorb the weedkiller spray
- Rainfall within 6 hours of application may reduce effectiveness and require re-treatment
- Resolva Super Strength Xtra Tough Concentrated weedkiller kills most weeds with a single application
- Some tough weeds may need a repeat treatment if re-growth appears
- Treatment effects on some weeds will be seen within a few days, other tougher weeds may not show effects for up to 4 weeks.

WHERE TO USE

For use on unwanted vegetation • For use on areas not intended to bear vegetation • **DO NOT SPRAY HEDGE BOTTOMS** • **DO NOT USE ON LAWNS** unless you intend to kill the grass • Extreme care should be taken to avoid contact by spray with cultivated plants and other desired vegetation.

HOW TO USE

Always read the label fully before use • As good general practice the wearing of gloves is recommended when using this product although this is not a requirement • **SHAKE WELL BEFORE USE** • Half fill the sprayer with clean water • Using the measure provided add the required quantity of Resolva Super Strength Xtra Tough Concentrated weedkiller to the sprayer water based on the table below.

Use	Quantity to be added to sprayer per litre of water	Area treated	Timing for best effectiveness
General use on annual weeds and grasses	16ml	40sq.m	Weeds should be actively growing with grasses having at least 5cm of leaf and broadleaved weeds having at least 2 leaves expanded when sprayed.
Perennial and other difficult broadleaved weeds	24ml	40sq.m	Perennial weeds must have full emergence of healthy green leaf that is actively growing. Perennial broadleaved weeds are most susceptible when growing actively and at or near flowering.

- Rinse measure 3 times and add washings to sprayer
- Complete filling the sprayer with the required volume of clean water
- Mix thoroughly before use
- Spray weed leaves lightly and evenly until visibly moistened but avoid wetting to run-off
- Replace cap after use
- Do not apply through or store in galvanised or unlined mild steel sprayers
- Always thoroughly clean the sprayer after use
- When this container is empty **RINSE THOROUGHLY 3 times** and add washings to the sprayer before final use.

AFTER USE

Do not walk into treated areas until the spray has dried on the leaves to avoid transfer to lawns and other vegetation • Leave weeds for at least 7 days before cultivating.

SAFETY INSTRUCTIONS

Protection during/in use: Do not breathe spray • Avoid contact with skin • **WASH ANY CONTAMINATION** from skin or eyes immediately • **WASH HANDS AND EXPOSED SKIN** before meals and after use. **Environmental Protection:** Do not contaminate water with the product or its container • Do not empty into drains. **Storage and Disposal:** **KEEP OUT OF THE REACH OF CHILDREN. KEEP PRODUCT AWAY FROM CHILDREN AND PETS** • **KEEP PRODUCT IN ORIGINAL CONTAINER**, tightly closed, in a safe place • Dispose of unused product in its container at a household waste site (civic amenity site). Contact your local council (local authority) for details • Dispose of empty container in the dustbin.

Keep children and pets away from treated areas until spray has dried
