

### WILD LOWER GUARANTEE

1<sup>sqm</sup> OF SEEDS PLANTED FOR EVERY BAG SOLD

For every bag of Nature's Haven Peat Free Multi-Purpose Compost purchased, Westland will plant 1sq.m of wildflowers for the creation of natural havens across the country that attract birds, bees, butterflies and beneficial insects. So you can be assured that you have done your part to nurture and sustain wildlife habitats nationwide.

#### How do I use it?

- Beds & Borders**
  - Dig a hole twice the size of root ball diameter and add a layer of compost.
  - Place plant in hole and back fill with compost. Firm compost around plant and water well.
- Potting**
  - Water plant well and allow to drain.
  - Allow enough space to accommodate roots.
  - Remove from pot and plant in new container. Firm the compost gently around the roots.
  - Once fully planted, water well.
- Pots, Containers & Hanging Baskets**
  - Choose container with adequate drainage holes. Place layer of grit in container and fill with compost for hanging baskets, the basket with moss or liner.
  - Plant with trailing plants around the edge and upright plants in the middle.
  - Water well.
- Seedlings / Pricking Out**
  - Prick out seedlings once they are large enough to handle.
  - Hold seedling by the leaves to avoid damage and gently tease the roots from the compost, using a dibber or pencil.
  - Plant seedlings far enough apart to allow for growth.
  - Water regularly until seedlings are ready for potting on.
- Taking Cuttings**
  - Fill seed tray evenly with compost, firm gently and water.
  - Make sloping cut in stem of cutting, remove all bottom leaves and dip end of cutting in hormone rooting powder.
  - Make hole in the compost with pencil or dibber.
  - Place cutting into hole and firm compost gently around it.
  - Cover tray with glass/plastic to prevent drying out and place in a warm spot out of direct sunlight, until cuttings have taken.

**Handy Gardening Tips**

- Unavailable for enclosed fire-retarded plants
- Store in a dry frost free place away from weed killers and other garden chemicals.
- Reuse bag after use.

**Health & Safety Advice**

- Use in a well ventilated area, and avoid breathing in dust.
- Reuse well gloves when gardening and then wash hands after use.

\*20 Litres (When Filled) - Volume may reduce by up to 10%. This bag has been filled in accordance with the growing Media Association Code of Practice for Quantity Measurement available from [www.growingmedia.co.uk](http://www.growingmedia.co.uk)

The Growing Media Initiative is working to raise awareness of the benefits of a reduced peat content in UK retail bagged growing media. [www.growingmediainitiative.org.uk](http://www.growingmediainitiative.org.uk)

## Nature's Haven

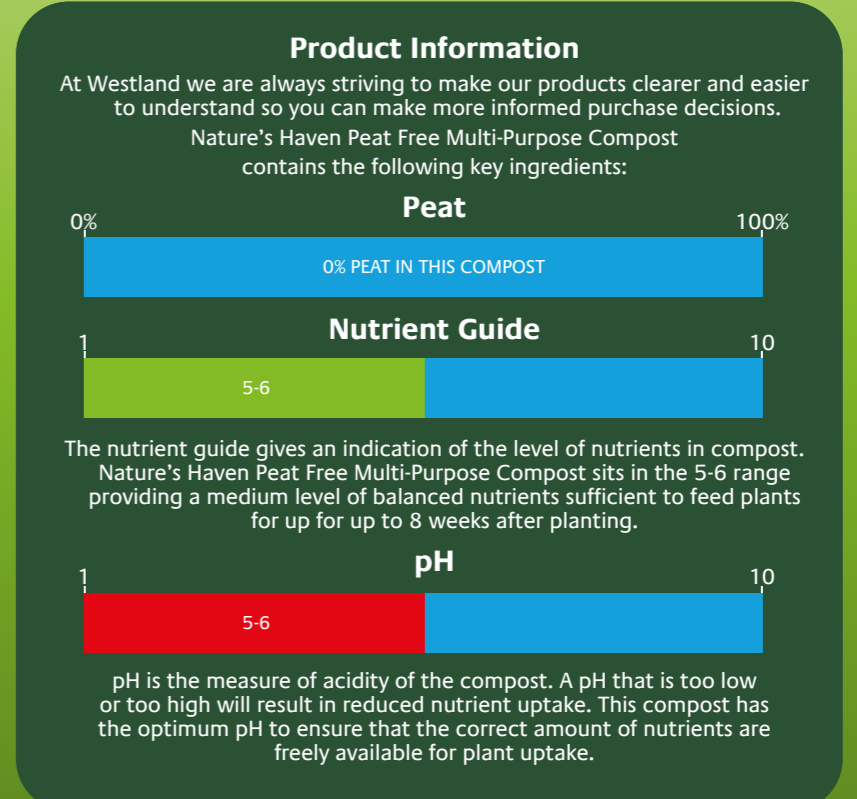

### Peat Free Multi-Purpose Compost

Nature's Haven is a range of gardening products designed for everyone who has an appreciation of nature, wildlife and the great outdoors.

#### Why use it?

This peat free compost will work in harmony with your garden. Produced from a balanced blend of West+, coir and composted bark. It is enriched with organic nutrients to feed for up to 8 weeks, making it perfect for use all around the garden.

Why not create your own wildlife haven in your garden by planting wildlife attracting plants such as Lavender, Foxgloves and Buddleias. These plants will attract bees, butterflies and other beneficial insects to your garden.
