8.1 Control Parameters

No ingredients with limit values that require monitoring at the workplace

8.2 Exposure Controls

8.2.1 Appropriate engineering controls: No special ventilation requirements.

Avoid high dust concentration and provide ventilation where necessary

Protective Measures: The use of technical measures should always have priority over the use of personal

protective equipment

A risk assessment based on the task being performed and the risks involved should

be carried out to determine personal protection equipment required

When selecting personal protective equipment, seek appropriate professional

advice

Personal protective equipment should be certified to appropriate standards

Respiratory Protection: Not necessary if room is well ventilated

Use suitable dust respirator if dust concentration is high or if a risk assessment

indicates this is necessary. (Filter P2)

Hand Protection: Wear suitable gloves when handling the product over long periods or if a risk

assessment indicates this is necessary. Gloves complying with EN420

Eye Protection: Wear eye protection when a risk assessment indicates this is necessary to avoid
