

# TECHNICAL FACT SHEET - LAWNS

V2-01/12/21

## SAFELAWN

### NATURAL LIQUID LAWN FEED

#### BENEFIT

- Feeds all year round
- 5 day fast greening
- Prevents weeds naturally
- Child and pet friendly
- No staining risk to hard surfaces

#### KEY POINTS

- Made from natural ingredients including seaweed
- Contains all essential nutrients
- Safe on young lawns
- Low scorch risk
- Dual uptake through leaves and roots
- Contains a natural surfactant for improved nutrient & water uptake.

#### APPLICATION RATE

APPLICATION METHOD	APPLICATION RATE
Apply by watering can or sprayer 	50ml in 4.5l water to cover 5m <sup>2</sup>  For even faster greening, apply at double the rate.

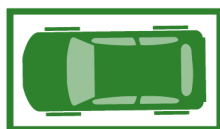

#### NPK VALUE:

**6-2-4 + Trace Elements & Seaweed**

#### WHEN TO USE

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
		✓	✓	✓	✓	✓	✓	✓	✓		

Estimate the size of your lawn to help prevent over-application.

1 CAR PARKING SPACE = 2 x 5 SQ METRES  
= 10 SQUARE METRES

**BEST CONDITIONS:** For best results, apply when the grass is actively growing—the product can be taken up both through the roots and foliage of the grass.

Apply every 1—2 weeks throughout the growing season for the best results.

#### INSTRUCTIONS FOR USE

It is important to apply lawn care products evenly and avoid variations of growth across the lawn. It is good practice to wear gloves when using this product although it is not a requirement.

Shake bottle well before use

Fill watering can or sprayer with required water volume and then add SafeLawn Liquid and ensure that it is evenly mixed.

This product does not need to be watered in after use.

This product can be applied straight after mowing.

Avoid application of fertiliser products in drought or freezing conditions .

#### EXPECTED RESULTS

Your lawn should thicken and become a lush green colour. As the grass thickens it will outcompete both weeds and moss.

SafeLawn liquid contains all essential nutrients along with plant bio stimulants which encourage thick, healthy growth and establishment

#### WHERE TO USE

For use on lawns

#### SafeLawn Natural Liquid Lawn Feed

Technical Advice +44 (0)1480 443789 Westland Horticulture Ltd, Alconbury Hill, Huntingdon, Cambridgeshire PE28 4HY, United Kingdom

Always read the label and product information before use

# WHY USE SafeLawn LIQUID LAWN FEED?

Nutrient uptake by leaves & roots for fast results

Low salt content, so safe to use on young lawns

Slow release fertiliser for long lasting results

Liquid nutrients penetrate the soil quickly

Made with 100% natural ingredients

Contains seaweed for natural biostimulant

## CHILD & PET FRIENDLY

### FREQUENTLY ASKED QUESTIONS

**Q. Can my children & pets go into the treated area?**

A. Yes children and pets can go into treated areas, although it is advisable to let the lawn dry after application.

**Q. I have used this product and it has had no effect on the weeds?**

A. SafeLawn liquid will encourage the lawn to outcompete weeds, but it will not kill them.

**Q. Can I use this product on a newly sown/turfed lawn?**

A. Once the seed/turf has begun to establish then SafeLawn Liquid can be used to give it a boost!

**Q. Are there any limits on application number?**

A. No, this product can be applied every 1-2 weeks throughout the growing season as the lawn requires.

Nutrient	Nutrient Content (% w/w)
Nitrogen (N) Total	6.0%
Phosphorus Pentoxide (P2O5)	2.0% (0.87% P)
Phosphorus Pentoxide (P2O5) soluble in Water	1.7% (0.74% P)
Potassium Oxide (K <sub>2</sub> O)	4.0% (3.32% K)
Potassium Oxide (K <sub>2</sub> O) soluble in Water	3.33% (2.74% K)
