

TECHNICAL FACT SHEET - LAWN SEED

301397 V4-08/10/18

GRO-SURE SMART LAWN SEED

The lawn seed that's **GUARANTEED** to grow*

BENEFIT

- Grows in full sun
- Grows in shade
- Aqua gel coated seed

KEY POINTS

- High quality varieties of lawn seed
- Premium multipurpose lawn seed—for family lawns
- Aqua gel coated seed to improve establishment by holding moisture around the seed.

*This seed is guaranteed to grow when pack instructions followed

APPLICATION RATE

LAWN TYPE	APPLICATION RATE
Starting a new lawn	40g sq.m
Over-seeding an existing lawn	30g sq.m

APPLICATION METHODS

Hand/Spreader/Shaker box

WHERE TO USE

Existing lawns To over-seed
Bare soil To establish new lawns
Patches For repairs

EXPECTED RESULTS

In good conditions blades of grass can usually be seen in under 2 weeks, however if the conditions are unfavourable this may take considerably longer.

INSTRUCTIONS FOR USE

PREPARATION

Clear away any debris and remove/kill weeds before sowing.

New lawn (or Patch Repair)	Revitalising Existing Lawn
<ul style="list-style-type: none">• Dig over the soil to a depth of 20-25cm.• Break down any lumps and firm soil by treading it.• Level out using a rake, creating a flat and even surface.	<ul style="list-style-type: none">• Mow the lawn closely.• Rake or scarify the area to open up the soil surface.
<ul style="list-style-type: none">• Spread Gro-Sure® Lawn Seeding Soil over the surface to a 3-4 cm depth and level out.	<ul style="list-style-type: none">• Fill any shallow holes with Westland Lawn & Turf Dressing and level out.

✓ Optimal sowing			❄️ Low temperature risk			☀️ High temperature risk					

SOWING

Tip: In dry conditions, water the soil thoroughly the day before.

- Shake the box to mix up the seeds.
- Lightly rake to incorporate the seed into the soil.
- Walk over or roll the sown area to press the seed into the soil.

WATERING

- Water the area thoroughly using a fine-rose watering can or sprinkler, taking care not to wash the seeds away.
- In dry conditions, water daily to maintain soil moisture levels until seed germinates.

Technical Advice +44 (0)1480 443789 ©Westland Horticulture Ltd, Alconbury Hill, Huntingdon, Cambridgeshire PE28 4HY, United Kingdom

Always read the label and product information before use

AFTER CARE

- Keep new lawns well watered especially in dry conditions.
- Do not use weed killers or strong fertilisers on new lawns and always read the product label before use.

RECOMMENDED LAWN FEEDS—For new lawns

- Westland SafeLawn • Aftercut 3 Day Green • Lawn Thickener

FREQUENTLY ASKED QUESTIONS

Q. Should I cover the seed?

A. The seed should be sown and lightly raked in to the soil surface and no deeper than 1-2cm. A germination sheet can be used to speed up the germination stage but should still be removed upon emergence.

Q. When can I use a Weed Feed & Moss Killer?

A. Your lawn must be older than a year before using products like these.

Q. Is it okay to store unused seed for next year?

A. It is always best to use seed in the season of purchase. Seed that has been stored in the box for a long time will have less vigour and will not germinate as well.
